Deleum profit almost doubles

KUALA LUMPUR: Deleum Bhd's pretax profit for the six months ended June 30, 2012 rose to RM30.7 million from RM19.7 million before. Deleum said the increase was largely due to higher operating profit of RM8.9 million, which came from the power, machinery and oilfield services seg-

ments, as well as an increase in share of associates' results by RM2.2 million. The group declared a first interim single-tier dividend of five sen. Group managing director Nan Yusri said the 60% stake in Northern Primera Sdn Bhd will provide the group another revenue stream. — Bernama
