### **Petronas Appoints Deleum To Provide Maintenance Service To Solar Turbines**

KUALA LUMPUR, Oct 24 (Bernama) -- Deleum Bhd, through Turboservices Sdn Bhd, had received a letter of award from Petronas to provide aftermarket maintenance service for Solar Turbines Incorporated's gas turbines in Malaysia.

In a statement today, Deleum said the letter, dated Sept 27, provided a general framework for the establishment of the long-term service agreements which would replace existing agreements.

The company said the appointment, effective Sept 16, was for a seven-year period and Petronas had the right to grant an extension option of three years thereafter or earlier termination of this appointment, as the case may be.

"The long-term service agreement will not have any effect on the company's issued and paid-up share capital and is expected to contribute positively to the earnings and net assets per share of Deleum for the duration of the agreement," the company added.
