Deleum Consolidates For Future Growth

KUALA LUMPUR, June 25 (Bernama) -- Deleum Bhd is poised to meet market challenges and strive for regional expansion as it undergoes a corporate rebranding exercise in conjunction with its 30th anniversary celebration.

Deleum is a provider of a diverse range of specialised supporting products and services to the oil and gas industry.

Its Managing Director Nan Yusri Nan Rahimy said that several key operating subsidiaries of the group which formerly operated under the 'Delcom' name had adopted 'Deleum'.

"For the past 30 years, we have been operating under the 'Delcom' name in the oil and gas industry. Wholly-owned subsidiary, Delcom Services Sdn Bhd, has established itself as a service company in the Malaysian oil and gas industry.

"As we move ahead and evolve to meet market challenges and demands, one of the steps the Deleum Group needs to take is, to consolidate our business focus under a single corporate identity and brand name," he said in a statement today.
