Deleum bidding for RM500 million worth of jobs this year

Oil and gas services provider, Deleum, is bidding for new contracts worth up to RM500mil this year. Group Managing Director Nan Yusry Nan Rahimy said the company is aggressive in tendering for contracts related to power and machinery, oilfield services and maintenance, as well as repair and overhaul works, and they are optimistic about securing them.

Nan Yusry also noted that the group's orderbook currently stands at RM2.95bil and that it will keep the group busy until 2023. On prospects, he said despite the fall in global oil prices, Deleum has strengthened its operations to face the challenges with continuous cost rationalisation and efforts to penetrate into growing markets.
