## Deleum to acquire Rotary for RM10.7m

**KUALA LUMPUR:** Deleum Bhd, via its subsidiary Delcom Services Sdn Bhd (DSSB), will acquire Rotary Technical Services Sdn Bhd for RM10.68 million cash.

In an announcement to Bursa Malaysia, Deleum said DSSB had entered into a conditional share sale agreement (SSA) with the seven shareholders of Rotary to acquire the entire equity interest in the latter.

Rotary's core activities are providing servicing, repair, modification, upgrading and installation of machinery and equipment — mainly motors, generators, transformers, pumps and valves. It began operating in May 2005, servicing rotating equipment.
