Deleum looks to M&A with local oil and gas service providers

Deleum Bhd is looking for merger and acquisition opportunities with local oil and gas service providers to develop its new energy business. Group managing director Nan Yusri Nan Rahimy said the group is currently in talks with two or three local companies that will complement its oilfield services and maintenance, repair and overhaul segments. Presently, the group is bidding for jobs worth between RM200 million and RM250 million both locally and regionally. Meanwhile, the group has allocated RM160 million capex for its oilfield services and also to buy equipment and tools. For this year's target, Nan Yusri said he is optimistic on the three main core segments (oilfield services, power and machinery and MRO) and they are aiming at a double-digit growth in earnings and revenue.

迪聯擬併購本地油氣服務供應商

（吉隆坡27日讯）迪联（DELEUM, 5132, 主板贸服组）计划并购本地油气服务供应商，以及探讨开发新能源业务。

该公司南尤斯利于股东大会后表示，并购对象已锁定本地2至3间本地油田服务及保养、维修及彻底检修（MRO）服务公司，以辅助及强化现有业务。

“还在初步洽谈阶段，有待董事部批准，暂无法预测何时可完成。”

除此之外，他表示迪联有意探讨开发新能源业务，尤其是大马经济转型计划（ETP）鉴定的新能源，包括与公司业务相关（废热发电能源）的生物能源及再生能源。

至于竞标总值，截至今日止为2亿至2亿5千万令吉，合约对象涵盖本地及区域市场，以供应化学品及提供油田服务为主，不过南尤斯利说，今日可能另外提呈1至2项新竞标，竞标额料增加。

另外，该公司今年资本开销1亿6千万令吉，主要用于油田服务、购买器材及提升工作设施系统。

对于今年业绩目标，他看好在3大业务（油田服务、电力与机械业务及MRO）正面贡献之下，净利及营业额将双位数增长。
